

Pagoda project

3321/Q701

NATUZZI
ITALIA

Pagoda 3321

Pagoda is characterized by clean lines and simple shapes to be combined with rich modular solutions including an integrated console and table system. The search for harmony taught us this, blending the elements with great care to achieve visual and spatial harmony.

Comfortness is the Natuzzi philosophy that harmonizes mind, body, and soul, generating deep well-being for the individual.

Design by Antonella Digirolamo

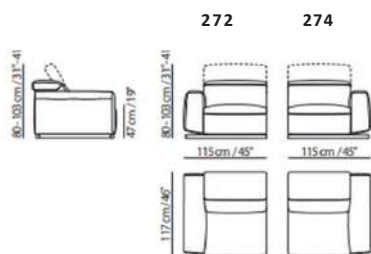

After her studies at the Italian Academy of Fine Arts and with decades of experience at the Natuzzi Design Center, Antonia Digirolamo expresses her creativity through projects that embody comfort and heritage, naturally embracing the Comfortness philosophy, which is rapidly emerging as a distinctive value for all our customers.

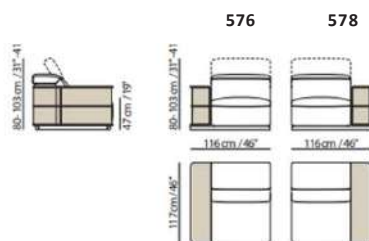

Choose your Pagoda 3321

The Pagoda project is extremely versatile, thanks to its 14SKUs, which allow for unlimited configurations suitable for any space, from retail stores to the homes of our customers.

Thanks to the configurator, this versatility can be customized according to the client's needs.

Technical features

Pagoda project combines various functions and mechanisms capable of delivering a profound sense of comfort.

This makes it the highest expression of Comfortness, the Natuzzi philosophy that harmonizes the well-being of mind, body, and soul.

Triple motion mechanism with independent control for headrest, lumbar and footrest

Electric and manual headrest

Zero Gravity for whole body extension

Seat "365" with remote control

Also available without recliner

Integrated multifunctional tables

Leather and Fabric (with contrast piping)

Battery available for selected versions

Triple power motion Mechanism

The triple power motion mechanism, with a control panel that individually activates the footrest, headrest, and lumbar support, allows the seating position to be adjusted for maximum comfort, catering to every individual's needs and providing a fully personalized comfort experience.

365 Function

This function controls the movement of the headrest and lumbar area, promoting the synchronization of breathing and heart rate. It is recommended to perform the function 3 times a day, with 6 breaths per minute for 5 minutes. Following this wellness program significantly reduces daily stress levels.

Zero Gravity Function

The "Zero Gravity" position is achieved through the triple-motion function, which elevates the feet to heart level, enhancing circulation and providing an optimal relaxation position.

The mechanism of the Zenova project has a wider opening of 8 degrees compared to the Mindful 3289 model.

Zenova Remote Control for Superior Comfort and Personalized Experience

The remote control for the Mindful 365 model is designed to enhance the comfort experience, elevating the customer experience to new heights. With the remote, users can easily activate the Micromobility and 365 functions, providing optimized management of these features. Additionally, it allows for the storage of up to 3 preferred relaxation positions, ensuring personalized comfort. The remote can connect up to six seats, simplifying and optimizing control for a seamless experience.

Micromobility

Starting from the ideal relaxation position, the sofa moves imperceptibly to keep the body's muscles active.

It works by slowly tilting the seat and footrest simultaneously with micromovements that improve blood circulation, contributing to a deeper state of relaxation.

Technical features

Pagoda is characterized by clean lines and simple shapes to be combined with rich modular solutions including an integrated console and table system.

Triple motion mechanism with independent control for headrest, lumbar and footrest

Electric and manual headrest

Zero Gravity for whole body extension

Moodboard warm neutral

To ensure harmony in the projects, the Natuzzi Style Center carefully selects materials and coverings, creating a dialogue between them. In this case, Salina leather has been paired with Montemario fabric, along with Piazzadispagna velvet. The harmonization of these coverings with woods and marbles will result in a moodboard that defines the final total look of the project. Each collection model offers multiple moodboards to adapt to various market geographies.

Moodboard warm neutral

Along with the moodboard of coverings and materials, the Natuzzi Style Center harmonizes the living room with furniture and accessories to complete the interior design project.
